

MOLIM 2017

Molecules in Motion

International Workshop on Molecular Quantum Dynamics and Kinetics
ETH Zurich, Switzerland

Website: [MOLIM 2017](#)

Tuesday 18 April through Thursday 20 April 2017

Second Announcement

The 2017 meeting venue is in Zurich, a charming Swiss city easily reached by air, rail or car from all cities of Europe.

Quantum dynamical phenomena are of importance in a wide range of fields in the physical, chemical, biological and computational sciences. The present Workshop is highly cross-disciplinary. It encompasses both theoretical and experimental work on Molecular Quantum Dynamics and Kinetics in gas and condensed phases, in general, including biological systems, chemical reactions, tunneling and energy flow phenomena in molecules, solids and

liquids. A strong interaction between experiment and theory is desired. We encourage contributions on all time dependent phenomena where molecular quantum dynamics plays an important role. A summary of topics can be found in the first announcement (see website <https://molim2017.ethz.ch/>). Some poster contributions may be selected as short oral contributions.

Travel, location and lodging

The meeting will start with scientific sessions after lunch on 18 April and end with dinner on 20 April 2017 (departure day 21 April, arrival day 18 or 17 April depending upon travel). It will be located on the Hönggerberg Campus of ETH Zürich (Chemistry lecture halls HCI J7). For those coming by car there will be parking space available at a low fee. Further details on travel will be announced on the website.

We have reserved blocks of rooms in two hotels. Reservation and payment remains your responsibility. One hotel is in walking distance to the campus and lecture hall. You can reserve directly at:

Hotel Kronenhof, Wehntalerstrasse 551, 8046 Zürich, Tel. +41-43 229 20 30,
email: info@hotel-kronenhof.ch. (Please reserve early)

You will get a special ETH rate by quoting ETH workshop MOLIM 2017 (price: single room CHF 96.- without breakfast and CHF 115.- including breakfast per person and night, price double room CHF 106.- without and CHF 144.- with breakfast per room and night). This is a modest, but good Swiss standard hotel (not entirely quiet location).

The second hotel is at very good standard in a perfectly quiet location:

Hotel Zürichberg, Orellstrasse 21, 8044 Zürich.

Tel. +41-44 268 35 35, email: zuerichberg@sorellhotels.com.

This is further away, but can be reached by public transport (and some special transport might be arranged, when there is interest). Price ETH workshop MOLIM 2017, single room with breakfast CHF 210.- or CHF 220.-, double room CHF 270.- with breakfast per room per night).

Zürich has many further options for hotels which will be indicated on the website in due course, as well as registration information, abstract submission and the detailed program in the third announcement. Meals are available on Campus.

For further information contact Martin@Quack.ch .

Executive Committee (co-chairs, from ETH Zurich)

Frédéric Merkt, Martin Quack, Markus Reiher, Jeremy Richardson,
Ruth Signorell, Hans Jakob Wörner

The workshop is supported by the Swiss Chemical Society and held jointly with the workshop of the working group 2 of the COST action MOLIM
