**Invitation letter in support of the application of Simone De Camillis to a STSM  
fellowship in the framework of COST action CM1405: Molecules in motion  
(MOLIM)**

Milano, Settembre 3<sup>rd</sup> 2015

Dear Simone De Camillis,

We would like to invite you to work at the Institute for Photonics and Nanotechnologies (IFN-CNR) Milan, Italy, in case your application to the STSM fellowship will be successful.

You will be involved in the development of a new setup for the generation of few-fs UV laser pulses for the investigation of the electron dynamics occurring in biologically relevant molecules. This work will be done in the STARLIGHT laboratory in the team of Francesca Calegari, researcher at IFN-CNR. The team will strongly benefit from your experience on femtosecond laser technology and pump-probe experiments. This is also an opportunity for you to develop new skills on UV pulse generation for time resolved experiments in biomolecules.

We look forward to see you in November.

Sincerely,

Dr. Francesca Calegari

Dr. Francesca Calegari  
Staff researcher at IFN-CNR  
c/o Physics Department, Politecnico di Milano
