Letter of invitation

supporting the application of Dr. Csaba Fábri for an STSM fellowship
within COST action CM1405: Molecules in Motion (CM1405)

Dear Csaba,

I would like to invite you to work in my group on the topic of “Efficient exploitation of molecular symmetry in variational rotational-vibrational computations” in case your application to the STSM fellowship program within the COST action MOLIM was successful.

I'm looking much forward to working with you on this interesting and highly useful research project and offer all the local support to help you to successfully finish the project.

Best regards,

Attila G. Császár
Professor of Chemistry
