Invitation letter to Feriel Ben Nasr,
in support of her application to a STSM fellowship in the framework of COST action CM1405:
Molecules in motion (MOLIM)

Dear Feriel Ben Nasr,

I will be very pleased to welcome you at ISMO in case of success of your application to the the STSM fellowship mentioned above.

You will participate in the work of the team "Structure and Dynamics of Complex Isolated Molecular Systems" led by A. Zehnacker-Rentien". You will be given the opportunity of learning new skills in state-of-the art spectroscopic techniques and you will benefit from the highly stimulating environment of the Paris-Saclay University.

The usual laboratory and computing facilities will be available, and also office space. I look forward to a productive period of work.

Yours sincerely,

Bernard Bourguignon
Directeur de recherche au CNRS
Directeur de l'ISMO
