Invitation to Sandra Gomez Rodriguez to Work at UCL

Dear Sandra,

I would like to invite you to work in my group on a short term scientific mission as part of the Molim Cost action. Provisionally the visit will be from 15th Mar. 2017 until 15th Apr. 2017. During this time we will be able to extend the work from your last visit, transforming your spin-isomer potentials to a form suitable for use with the MCTDH algorithm and run simulations to see the effect of multiple coupled modes on the dynamics.

I look forward to your visit.

Yours sincerely

Prof. Graham Worth
Professor of Computational Chemistry, University College London.
