Invitation letter

Saclay, February 9th 2018

Supporting participation of Mr Zied GOUID for an STSM fellowship with COST ACTION CM 1405: Molecules in Motions

To
Zied Gouid,
PhD student
University of Tunis
Tunisia

It is my pleasure to invite you for an short mission in our group at the Université Paris Saclay from the 20th of February 2018 to 20th of March 2018. This stay is within a collaborative research supported by the COST STSMs. During your visit, we will investigate the photoionization of the Fluorenone and Xanthone molecules. As you know, we measured the threshold photoelectron and ion yield of these molecules as function of photonenergy were recently recorded at Synchrotron Soleil with high resolution. The assignment and the interpretation of these data require high level ab initio computations that will be performed during this stay. We will give you all the necessary materials to conduct this research program. We are looking forward for your vist.

Lionel POISSON
CNRS Senior Scientist
Head of the Reaction Dynamics Group
