*Dr Khaled Mahjoubi*

10 March 2017

**Invitation to visit the research group of Dr D.M. Benoit at the University of Hull, UK for 4 weeks**

Dear Dr *Mahjoubi*,

I would like to invite you to visit my research group at the University of Hull from the 1<sup>st</sup> April 2017 until the 30<sup>th</sup> April 2017 (total duration 4 weeks). This visit is within the framework of the COST Action CM1405, Molecules in motion (MOLIM): Short Term Scientific Missions (STSM).

During this visit, you will be working on the project entitled: "Clustering and embedded induced spectroscopic effects: Anharmonic spectra of small molecules interacting with rare gas environments applied to H<sub>2</sub> and CO in different charge states" and finalise a research paper based on the work performed during your Ph.D. thesis.

During your stay, you will be a guest scientist of the School of Mathematical and Physical Sciences at the University of Hull and your living and travel expenses will be covered by the COST Action CM1405.

Dr David M. Benoit, MRSC FHEA

Senior Lecturer in Physical Chemistry
