

Instituto de Física Fundamental
Octavio Roncero Villa
INVESTIGADOR CIENTÍFICO

Madrid, July 10th 2017

Dear Stephan van den Wildenberg,

It is a pleasure to invite you to a STMS in my laboratory at your convenience in the months of September or October this year, in the department of Atomic, Molecular and Cluster Physics of the Institute of Fundamental Physics of the Consejo Superior de Investigaciones Científicas.

As we stated in the STMS proposal, the subject of the work will be the photodissociation and photoionization of HCN in the framework of the COST action "Molecules in Motion" (MOLIM, ref CM1405). We will share with you all our methods and programs for those studies.

During your stay we will provide you an office, computer and bibliographic facilities.

Looking forward for meeting you.

Yours Sincerely

A blue ink handwritten signature is written over a circular official stamp. The stamp contains the text "INSTITUTO DE FÍSICA FUNDAMENTAL" around the perimeter and "CSIC" in the center. Below the stamp, the text "Fdo.: Prof. Octavio Roncero" is printed.

Fdo.: Prof. Octavio Roncero
