COST Action CM1405: STSM from Madrid to Zagreb: May 29 - June 7, 2017

I fully approve the work plan of Cristina Sanz STSM from Madrid to Zagreb, R. Bošković Institute. The period of the STSM from May 29th to June 7th suits me well.

The STSM concerns the incorporation of the surface hopping algorithm in the Quantics code. Our goal is to provide a way of comparing quantum and classical dynamics on coupled multidimensional potential energy surfaces.

Sincerely,

Nađa Došlić
