

Work plan for the STSM: COST-STSM-CM1405-XXXXX

Day 1 (29th May 2017)

Meeting between Dr. Nadja Doslic and the STSM applicant to talk about the work plan and the way to proceed for the next days.

Day 2 (30th May 2017)

Dr. Doslic will provide with the programs and explain the way they work, so that the STSM applicant can go into detail in their use and in the way they could be modify to be implemented in other codes.

Days 3,4,5,6 (31th May- 5th June 2017)

The STSM applicant, with the help of Dr. Nadja Doslic, will study the code and discuss the important points of it. During these 4 days many meetings will be held between the Dr. Nadja Doslic and the STSM applicant.

Day 7,8 (6th - 7th June 2017)

Dr Nadja Doslic and STSM applicant will decide/seek the system which will be used to compare between the classical results and the future wavepacket calculations, once the code of Dr Doslic is implemented in Quantics code.
